

Initial Public OPPORTUNITY

Prospectus

Become a true angel investor—invest in your community! If you are looking for an investment that yields big results this year, we have a fantastic opportunity for you.

Our target market is expanding and desperately needs our services. Every year in Washington, approximately 600 children experience homelessness and nearly 15,000 are at risk due to inadequate or abusive living situations. For teenagers and young adults who have aged out of foster care, the situation isn't much better. Nearly 22% will experience homelessness and another 25% will need to "couch surf" for their shelter. On any given night in King County alone, there are approximately 1,500 eighteen to twenty-one year olds living on the street.

We offer a proven solution. Recognized by the American Bar Association as a model program, Street Youth Legal Advocates of Washington helps homeless and at-risk youth overcome barriers to education, housing, employment and public benefits. Our goal is to reach and assist these youth before they become homeless, enter the criminal justice system, or return to inappropriate placements at home or in State care.

This is your opportunity to share in the lives of young people who need your help! We are offering 10,000 fundraising "shares" at \$25 each between now and December 9, 2009.

Your return on investment is changed lives. Specifically, your investment will result in:

- Increased days and times of our three Drop-In Centers in Seattle and the addition of a Drop-In Center in Spokane.
- Expansion of our Juvenile Record Sealing Clinic to Pierce and Snohomish County.
- Completion of a "Youth Law Manual" to train and assist our volunteers and other service providers.
- Increased ability to track and collect data on the youth we serve.
- A long-term legacy of helping youth move toward healthy, productive lives.
- An Annual Report documenting the youth we serve and the progress they've made.
- A share certificate to display in your home or office.
- Public recognition on www.sylaw.org and in our print media.
- A letter confirming that your share purchase is fully tax-deductible.
- And an invitation to our Shareholder Celebration when we meet our goal of selling 10,000 shares!

Please Note: All funds raised during this "Initial Public Opportunity" are tax-deductible and will be used to support the programs of SYLAW. Shareholders will not receive any financial return, do not have any voting rights nor own stock or shares in the nonprofit public charity "Street Youth Legal Advocates of Washington" or any of its assets. These IPO "shares" simply offer their holders an opportunity to share in SYLAW's work as a donor.
